## FEED REFUGEES AT \$1500 DAILY

### Huerta's Vanquished Army Arrives at Marfa, Sore and Ragged After a 67 Mile March.--Long March Abounds With Accidents

Marfa, Tex., Jan. 18.—Foolsore, ragged, almost famished from the three days march on foot, 67 miles over a wind-swept mountain road, the 3,800 Mexican federal soldiers and generals routed by the rebels from Ojinaga, Mex., with 1067 women and about 300 children, arrived today within a few miles of Marfa, whence they are to be transported by train to Fort Bliss.

The remnant of the Huerta army, which sought asylum in this country, will be formally interned at Fort Bliss on Tuesday, as wards of the government. They are to be held there indefinitely. It will be the first time that the American has been called upon to shelter, feed and clothe the entire division of a foreign army which includes six armed generals.

None of those in the unique caravan of Mexican soldiers, women, children, horses, mules and dogs was more visibly affected when coming within sight of Marfa, than General Calvario Mercado, Huerta's former military chief, who ordered the evacuation of Ojinaga.

Mercado was confessedly humiliated not only at the defeat of his army and the necessity for his flight to foreign soil, but also because of a report from Mexico City that he would be court-martialed should he return to his native country.

Beside General Mercado, and mingling with the United States cavalrymen who acted as guards, marched the federal generals Castro, Aduna, Luna, Orpinal and Romero, all shorn of their swords.

### Many Obstacles

The picturesque march abounded with incidents. The death of a child, the death of several wounded soldiers, the search for water in the desert; the constant straggling away from the line of march and the rounding up again of scores of the refugees were some of the difficulties with which the United States cavalry, commanded by Major McNamee, had to contend with. The Mexicans guarded vigilantly as prisoners, outnumbered the escorting soldiers ten to one.

Viewed from a hilltop the oncoming army as it surged through the mountain passes and reached backward into the dusty distance ten miles away, was a picture of exhaustion, although the prospect of soon reaching the railway and ample supply of rations seemed to revive fresh courage.

Since they were routed from Ojinaga eight days ago, the Mexican soldiers had only scant food supplies. Three camps had been established along the road to Marfa, but these camps were supplied with limited rations, because all food stuff and water had to be carried by wagons from Marfa. Many of the foreigners were poorly clad and without blankets, so their sufferings at night were intense.

Tonight soldiers and civilians who had been through battles, had endured exposure, hunger and misery, and had turned their backs on their own country, looked forward hopefully to life in a new and strange land.

Rations for the Mexican soldiers and refugees who are to be interned here, were ordered by Brigadier Bliss today. The soldiers, Generals, and other officers of the defeated Huerta army are to be sheltered in 1200 tents spread out on the reservation of Fort Bliss on a spur of the railroad.

The monthly food supplies required for the self-invited guests will be 33,000 pounds of meat, 20,000 pounds of beans, 135,000 loaves of bread and 5,000 pounds of coffee. The estimated cost of the rations is \$1,500 a day.

The refugee camp will be enclosed in 11 miles of barbed wire fence, within which the Mexicans will be guarded on the footing of prisoners of war. Four troops of United States cavalry will patrol the fence day and night.

### NOTICE.

Regular meeting of Constitution Circle, No. 294, Tuesday evening, January 20, at 7.30 sharp. Per order,  
MRS. NORA HENNESSEY,  
Chief Companion.

MRS. MARY RYAN, Rec. Sec.

LOST.—On Saturday evening, January 17, a fur gauntlet glove. Under please return to Dr. A. J. Herrick, veterinarian, and receive \$1.00 gift D. 19.

Messrs. R. Clyde and Richmond Mangeson returned on Saturday from Grand Rapids, Mich., where they have been attending a furniture dealers' convention.

## WELCH HAS NARROW ESCAPE

Falls Between Horse's Feet  
and His Sleigh—Insists on  
Driving Home.

James Welch of Newington, escaped a serious injury on Saturday afternoon while driving a heavy farm sleigh over the railroad crossing on Vaughan street. He fell from the sleigh in such a way as to land directly in front of the runners behind the feet of his horse. The animal appeared to realize the situation and made no attempt to get away. Debban Whitehouse and others acted quickly and pulled the man from his perilous position. Welch claimed no bad results from the accident and insisted on continuing his drive home.

## NAVY YARD NEWS

### A Farewell Party

The crew of the cruiser Des Moines are arranging for a farewell concert and ball to take place at Greenman's Hall on Thursday evening, next. It will be a complimentary affair.

### Entertains Fifty Guests

Fifty scholars from the eight grade in this city were the guests of Miss Marion Payne at the navy yard on Saturday afternoon, where she was hostess at a most enjoyable entertainment and dance held in the armory.

The marino band furnished music and Welch catered. Miss Payne was assisted in receiving by her mother, Mrs. Arms.

Miss Mary Baxter of Bath, Me., was among the out of town guests.

### Without a Chief

The yard is still without a chief progress man with several mechanics waiting to take the examination for the same. If the department decides to appoint a successor to Mr. Wacker, since he was appointed master mechanic, the assistant progress men have been acting without a chief.

### Vessel Movements

The Montana has arrived at Guantanamo.

The Denver at San Francisco.

The Nashville at Port au Prince.

The Ohio at Philadelphia.

The Hannibal at Guantanamo.

The Poloma and Rocket at Guantanamo.

The Whipple and Perry at San Diego.

The San Francisco, Palapso and Paluxent at Culbura.

The Maryland has sailed from Guantanamo for Mazatlan.

The Eagle from Port au Prince for a survey, and the Rainbow from Shanghai for Manila.

### Changes Among Officers

Lieut. A. A. Garcelon, Jr., from navy yard, Norfolk, Va., to staff commander in-chief, Pacific reserve fleet.

Lieut. C. A. Richards, to temporary duty receiving ship at Norfolk, Va.

Ensign P. S. Thoms from the North Dakota to the Montana.

Ensign F. L. Shen from the Arkansas to Montana.

Ensign D. E. Kemp to the North Carolina.

Ensign H. B. Helm from the Michigan to the Ozark.

Passed Asst. Surgeon B. H. Dorsey from Camp Elliott, Canal Zone to the Connecticut.

Chief Machinist D. W. Harry from New Jersey to the Tennessee.

Lieut. B. H. Green from Wilmington to Rainbow.

Lieut. (Junior Grade) J. C. Jennings, from the Wilmington to Rainbow.

Lieut. (Junior Grade) H. H. Forgive from Pompano to Panama.

Machinist C. J. Romulus from the naval station, Olongapo, to Rainbow.

### Was Inspection Officer Here

Commander John F. Hubbard, who died at the government hospital Hong Kong, China on January 10, was a former inspector of equipment at the Portsmouth yard, and one of his last places of duty was at the recruiting station, Boston.

### Will Command Des Moines

Commander Carl T. Vogelgesang, executive officer of the U. S. S. Wyoming, will take command of the cruiser Des Moines on her arrival in southern waters relieving Captain A. T. Long.

### Will Take It Up With Secretary

It is understood that the navy yard workmen who were rescued by the crew of the yard ferry, No. 1048 intend to bring the matter to the attention of the navy department at Washington in order that the secretary of the navy may take due record.

## YORK MAN IS BUNCOED

### Thought He Was Selling a Cheap Horse and on Order Obtained Horse Sharps Get Animal Valued at \$250 Belonging to Another Party

## County Solicitor and Sheriff Sphney on Sunday were busy en- gaged in investigating the theft of a horse valued at \$250, the property of G. A. Hatchelder of North Hampton, the animal having been obtained from a York man by sharp practices on the part of two local horse sharps.

On Saturday William Parsons of York brought the horse owned by Mr. Hatchelder from York and placed the animal, together with his own, in Hatchelder's stable.

Later in the day he visited a Pen-bullow street saloon where he met the two local horse sharps. It is alleged that after Parsons had partaken quite freely they engaged in a dealer for his horse, an animal valued at about \$250, and finally he accepted that sum and gave them an order for his horse.

They proceeded to the stable and instead of taking the animal owned by Mr. Parsons, took the one belonging to Mr. Hatchelder.

In the meantime Mr. Hatchelder had sold his horse to a New Castle man, who came to the stable on Sunday morning to get the animal as directed by his owner.

On his arrival he found the horse was gone and he at once communicated with Mr. Hatchelder. The latter immediately came to this city and notified the county officers and sharp were at once taken to recover the animal. The officers went to York Bench and got Parsons and he told his story of what had happened and he was corroborated by others who had witnessed the transaction. The horse sharp and the animal have disappeared and up to this morning had not been located. It is stated that both of the parties implicated in the sharp practice will be prosecuted on their apprehension.

County Solicitor and Sheriff Sphney on Sunday were busy engaged in investigating the theft of a horse valued at \$250, the property of G. A. Hatchelder of North Hampton, the animal having been obtained from a York man by sharp practices on the part of two local horse sharps.

### Getting Ice Supply

The work of cutting and storing the ice from the yard pond was started today by the men of the naval prison. The ice measures 14 inches.

### Says We Will Get It

Relative to the oil barge which this paper announced would be built at the local yard, one of the officers attached to a vessel here, who recently returned from the department at Washington, brings further information that the secretary of the navy is still at work on the matter and that the work will come to Portsmouth.

### Will Go Into Boston

The cruiser Des Moines on her trip will touch at Boston, and Newport for a draft of men, some of which will be left at Norfolk.

### ANNOUNCEMENT.

Mr. Charles P. Sheehan will guaran-

## GOVERNMENT LAND FIGURES

Agricultural Bureau Shows  
the Condition as It Stands  
in This State.

In its report on agricultural land in the United States, the department of agriculture gives these figures for New Hampshire:

Total land area, 6,990,000 acres; estimated percentage available for tillable crops, 41; percentage available for uncultivated crops, 32; not available for agriculture, 27.

Ten per cent. of the land area was in crops according to the 1909 census, this being 25 per cent. of the potentially tillable area. It is estimated that four acres are available for every acre actually tilled in 1909.

## SEARCHING FOR PRESCOTT PALMER

### Revenue Cutter Gresham Meets With Accident Off the Coast at Noon.

At noon today the revenue cutter Gresham and Androsoggin were both off the coast searching for the lost schooner Prescott Palmer. While enroute the Gresham carried away her rubber head and is now trying to make Boston city yard for repairs. The revenue cutter Woodbury is temporarily laid up at Portland for repairs made necessary from the damage she received in her run to aid the wrecked schooner. Cobiquid on Trinity Rock, Bay of Fundy.

Miss Helen Taughton of South Lawrence, Mass., who has been visiting in this city has returned home.

Parents! Here in our boys' department you will find the same bargain prices in force as in the men's department, and a splendid assortment of both suits and overcoats from which to select. Norfolk suits with extra trousers begin at the mark-down prices as low as three dollars and forty cents (\$3.40).

## MORE MEN GOING INTO MINISTRY

Prof. Nichols Says the Number of Students Is on the Increase.

Auburn, N. Y., Jan. 19. Prof. H. H. Nichols, of Auburn Theological Seminary, has found a new answer to the old question: "Why is the number of students for the Christian ministry decreasing?" The answer according to Professor Nichols is that there isn't any such decline. On the contrary, at present, the number of students for the ministry is increasing. In 1913 there were more students in the theological seminaries of the Presbyterian church in the United States than in any other year since 1900. The low water mark was reached in 1902. Since then the movement with some slight fluctuations has been upward. In the years 1908 to 1913 the number grew 16 per cent, a rate of increase more rapid than that of the population of the country. Professor Nichols points out that there was once a decrease in the number of students. Between 1888 and 1895 it increased 50 per cent, reaching the high water mark of the past twenty-five years in the latter year. Then came a decline, the number falling off by about a third between 1895 and 1902. But in 1902 the tide turned and while there was not yet as many students as in 1895, the curve since then has been climbing.

Professor Nichols cites some figures prepared by the Carnegie Foundation for the Advancement of Teaching to show that this encouraging condition is by no means peculiar to the Presbyterian church. This study made by the Foundation, covered the years from 1885 to 1901, and dealt with all the churches of the United States, and from it there appears to have been a slow rise in the number of theological students in all denominations between 1885 and 1900; a fall between 1900 and 1905; and a decided rise between 1905 and 1910.

What makes the situation still more encouraging is the fact that the statistics above cited refer to students in graduate theological schools, that is schools requiring a college education for admission.

## KITTERY

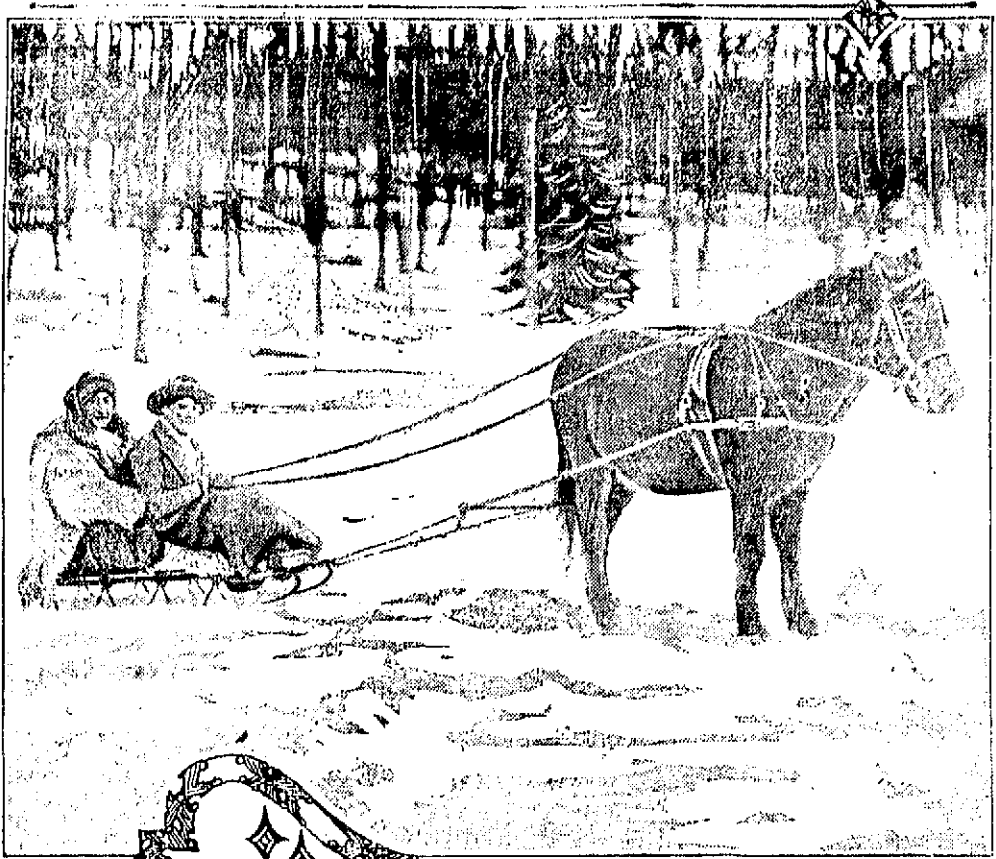

Breezy Items From the Village Across the River.

Kittery Correspondents telephone 778-M, P. O. Box 803.

A district meeting of the Red Men was held at Odd Fellows hall on Saturday evening, St. Asaphville tribe of Kittery entertaining. The meeting was under the direction of Deputy Great Sachem Wesley S. Birch of North Berwick. The evening's program began with a parade in which over one hundred Red Men were in line, and led by the Portsmouth Life and Drum Corps, marched from the hall to Cottle's Hill, counter-marched to the Navy Yard station, and back to the hall, during which time a large amount of red fire was burned.

At the session the adoption degree

## How Tuxedo Park Society Folks Use a Pony Hitched to Sled

MR. and MRS. WAGSTAFF DRIVING MONKEY

Driving a pony to a sled is an exhibiting form of sport, and fashionable folk of Tuxedo, N. Y., find much pleasure

in doing it. The only drawback is that when the pony goes at high speed his hoofs throw snowballs in

the faces of the sled's occupants. The Wagstaffs shown in the photo are Tuxedo society folks.

was conferred on five male faces by Wagonville tribe of North Berwick in an exceptionally fine manner.

Among the visitors were Great Prophet Frederick A. Hodge of South Berwick; Great Senator Sagamore Henry I. Durbin of South Berwick; Great Chief of Records Herbert B. Seal of Portland; Past Great Keeper of Wampum John O. Foss of South Berwick; Past Great Guard of the Wigwag John Fogarty of South Berwick; and Great Junior Sagamore of New Hampshire Richard A. Starling of Newmarket. A number from Massachusetts Tribe of Portsmouth were also present. The tribes from North Berwick, South Berwick and Ogunquit were well represented. After the work, corn and venison were served in the lower hall followed by cigars and speechmaking.

The local tribe is in a very prosperous condition, having added largely to its membership the past three months. The following are the officers: Prophet, Ray DeWolf; sachem, F. E. Butler; senior sagamore, A. W. Nowell; junior sagamore, Thomas Murray; chief of records, Frank B. Donnell; collector of wampum, Thomas E. Wilson; keeper of wampum, George O. Lewis; guard of the tent, Edwin Rowe; first sump, Addison Howe; second sump, Owen Boyce. This order meets every Thursday evening at Orange hall.

The following officers of Crystal

Chapter, Epworth League, were installed last evening by Rev. A. J. Hayes: President, Miss Eleanor Lovell; first vice president, Miss Alice Clough; second vice president, Mrs. U. G. Swift; third vice president, Mrs. Nellie Milliken; fourth vice president, Mr. Charles Jones; secretary, Miss Eva Lambert; treasurer, Mr. Victor Hulken.

Mr. George W. Damon still remains ill at his daughter's home in Dover.

Mr. and Mrs. Emil Jenkins and little son passed Sunday with relatives in Portsmouth.

Miss Annie Hansen of Dover passed Sunday with relatives here.

The W. C. T. U. meets Tuesday afternoon at 2.30 at the Second M. E. church and will be open to the public. Miss Esther Gilman will give readings.

The Ladies Aid of the Second M. E. church will meet Wednesday afternoon at 1 o'clock with Mrs. Thomas Ritchie of Commercial street. Members are asked to come prepared to sew for the winter sale.

Mrs. A. H. Brackett and daughter, Miss Marlin, were visitors in Dover on Saturday.

Alfred's Lodge of Odd Fellows meets this evening.

York Rehearsal lodge meets on Thursday evening and the officers will be installed. Supper will be served at 6 o'clock, instead of after the lodge meeting as is customary. After the installation there will be initiation and degree staff members are urged to be present.

Mr. and Mrs. Arthur Baker are passing a few days in York.

Mrs. Clarence Grant of Love Lane was a visitor in Dover on Saturday.

The Ladies' Fanny Work Club meets Tuesday afternoon with Mrs. James H. Philbrick.

Mrs. J. E. Paul is able to be out after a few days' illness.

Mr. and Mrs. William Haines have moved from North Berwick to Rice avenue.

The supper committee of the Christian Endeavor Society will meet tonight at 7.30 at the home of Mrs. J. Edgar Burnham on Woodlawn avenue.

## IN NEW ENGLAND

TO MEET IN BOSTON

Railroad Trainmen of New England Will Hear Grand President Lee at Session February 8.

Boston, January 19.—On February 8 at Faneuil Hall will be held a union meeting of the members of the Brotherhood of Railroad Trainmen of New England, at which Grand President William G. Lee will be the principal speaker.

Other men prominent in Brotherhood and other labor circles will also attend the banquet of the lodges on the same night.

The coming visit of the grand president was announced at the meeting of Bunker Hill Lodge, Brotherhood of Railroad Trainmen, in Grand Army Hall, Charlestown, yesterday afternoon.

The two candidates were obligated yesterday.

STRIVE TO DISSUADE GIRL

Holyoke, Jan. 18.—Much pressure is being brought to bear on Miss Lillian Remison of 422 high street to abandon her plan of marrying Joe Funn,

a Chinese laundryman, living at 439 High street, who applied for a marriage license Friday at the city clerk's office with the girl.

Miss Remison, who will be 17 years old in March was visited by a police official today, who sought to dissuade her from taking the step. City Clerk John P. Sheehan has stated that he will not give a marriage certificate to Funn, unless he presents a death certificate of his first wife. He married Daisy Washington at Chicago in 1902. Joe says that she is dead.

The police are uncertain whether pressure was brought on the girl further in favor of the match. The consent was given and filed with the city clerk.

## 23 TAKEN IN RAID

Newburyport Men Charged With Being Present Where Gaming Implements Were Found.

Newburyport, Jan. 18.—Under command of Captain Charles W. Wells, the police tonight made the biggest raid in the history of the force, getting 23 men. The place was ached behind a man who had entered and as the door was opened to admit him, the officer rushed the place and got inside before those in the place realized what was up. There was an other exit from the place, but the door through which the officer had entered.

The place was stripped of its furnishings, which were taken to the station. All of the men got bail and will appear in court in the morning, charged with being present where gaming implements were found.

## TO SELECT NEW PRINCIPAL

Exeter, Jan. 18.—President S. Sidney Smith of the Board of Trustees of the Phillips Exeter Academy has taken initiative steps towards selecting a principal to take the place of the late Harlan P. Amen. President William De Witt Hyde of Bowdoin College and Robert Winsor of Boston and Weston, Mass., besides himself has been named as a committee to choose a man for the position. Principal Amen died on November 9, and since his death Professor Joseph F. Ford has been acting principal.

## CONTRACTORS OPPOSE THE SCHEDULE

Dover, January 18.—The members of the local Carpenters' Union met several days ago and agreed to demand \$3.04 a day for their labor instead of the \$2.50. The contractors have taken exception to the proposed schedule. Their objection is that the increase has been made a general one, while they hold that the rank and file of Dover carpenters are not skilled sufficiently to warrant their receiving \$3.04 a day. They believe some discrimination should be made. No serious trouble is anticipated, as it is believed the difference of opinion may be settled at a series of conferences.

## FIRE DESTROYS RUTLAND BLOCK

Rutland, Vt., Jan. 18.—Fire destroyed the Dunn block, a four story business structure, tonight causing a loss of \$50,000. The firemen succeeded in saving the opera house next door, after a long struggle. Dunn's hardware store and the Grand Union Tea store occupied the ground floor of the burned structure.

## OUTLAW STILL RESISTS ARREST

Beardsley's Wife Is Shot in Leg When a Revolver Falls From Window.

Mayville, N. Y., Jan. 18. Outlaw Edward Beardsley is still in confinement in his barbed-wire shack near Summerdale.

Lying on a bed in the front room of the house in the woman known as Mrs. Beardsley. She has a bullet in her right leg, just above the knee. One of the children accidentally knocked Beardsley's revolver off the windowsill this afternoon, and the bullet hit her, according to statements made by Beardsley.

Sheriff Anderson's plans for his capture miscarried today, but Beardsley says that he will surrender on Wednesday to Attorney Pickard, who has been retained by his brothers. Will Pickard, provided the children have been delivered to Charles Beardsley, and his mother-in-law, Mrs. Austin of Youngsville, Pa., he says that he will on that day ride to Mayville and allow himself to be handed over to Sheriff Anderson.

The sheriff this afternoon promised to give Beardsley until Wednesday noon. In the meantime food will be provided by the sheriff. The woman who has kept watch with the Summerdale outlaw needs medical attention, but Beardsley refused to let Dr. Reynolds of Mayville enter the house this evening. He demanded that Dr. Reynolds pass the bandages and antiseptics through the window and said he would care for her.

If Beardsley does not give up the children and the woman Wednesday noon, Sheriff Anderson will storm the house.

When the alleged accident to Mrs. Beardsley occurred, members of the sheriff's posse heard the shot and telephoned to Mayville to Dr. Reynolds. Dr. Reynolds, on his arrival, begged to be allowed to enter the house to take care of the woman, whose moans could be heard.

"No," said Beardsley. "I know what I am doing. This woman here is not my wife. I want you to ask that sheriff to send Mrs. Beardsley here. She's the woman in the jail. She will take care of Mrs. Pier, Mrs. Edna Pier."

Upon his return to Mayville, Dr. Reynolds told Sheriff Anderson of Beardsley's refusal to allow him to attend the woman. The sheriff was skeptical. He was not convinced that the woman was wounded.

An hour before the shooting Beardsley held what amounted to a public reception. A number of sightseers who had eluded the guard passed down the road in front of the house. Beardsley called two of them to the window and talked freely with them. He signed a number of picture postcards "Edward Arthur Beardsley," and a collection of \$7.25 was taken up among the men and passed through the broken window where Beardsley stood with rifle in hand.

Before the men left, Beardsley asked them to make public a statement which he wrote out. In it he claimed he "certainly knew nothing about this man Putnam being shot," and sought to justify his present defiance of the sheriff as the only means he had of keeping his children out of a county institution.

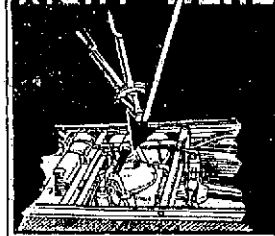

## BROWN THE TAILOR

Has just returned from New York with a complete line of spring models. Now is the time to select your spring suit and place your order at a very low price. Also all kinds of remodeling done.

Brown, The Tailor, Room 1, Franklin Block, Portsmouth, N. H.

Rev. L. H. Thayer, D. D., is attending the Congregational Convention at Chicago.

## RIGHT HERE

How does your gear shift feel—is it "loose"—has it "play"?

This highly important part of your car wears none too slowly—and if the wear isn't "taken up," worn parts replaced or bushed, you are apt to have stripped gears because of the "shift" not fully meshing them.

We'll attend to your gear shift and every other part of your car RIGHT if you have us overhaul it.

Up-to-date equipment and ample car space, also competent mechanics.

TERMS—\$4.00 a year when paid in advance; 50 cents a month; 3 cents per copy, delivered in any part of the city or sent by mail. Communications should be addressed to F. W. Hartford, Editor.

Entered at the Portsmouth, N. H., postoffice as second-class mail matter. Advertising rates reasonable and made known upon application.

FOR PORTSMOUTH AND PORTSMOUTH'S INTERESTS  
Editorial.....28 | Business.....37

Portsmouth, N. H., Monday, January 19, 1914.

Some of the brightest, most piquant faces we ever beheld were covered with freckles. One brilliant young lady whom we knew in our youth, and who was a leading belle in an Eastern city for many seasons, used to declare that her freckles were a valuable adjunct to her personal appearance, and that without them she would be bereft of half her power to charm. There are spots on the sun; why should there not be spots on the daughters?

Millions of American women are bitterly opposed to woman suffrage. They know, in their hearts, the theory is wrong and unnatural, and prefer to be the best loved ones of the earth rather than the hard-featured class that is attempting to unsex itself and bring down destruction on the happy condition that has made woman adored through all ages and climes.

Some men will eat a good meal at home, of their wives' cooking, and arise from the table without a word of praise for the patient little woman who did the cooking, yet when the same fellows get a burnt meal with cold slop called coffee at a restaurant they pay the bill cheerfully and tip the waiter (female) handsomely, and smiling at the time.

"Lay a fainting person down," says a medical journal of recent date. If the fainting person be a horrid man or a female who will be 47 in February, we'll obey orders instantly, but if the fainter is a navy-blue-eyed rosy-lipped girl of about 18 or 25, these strong young arms shall support her, if we never lay up a nickel.

The president of the American Butchers' association says that "much of the virile force of the American people is derived from rich, red, juicy beef." The American people of the immediate future will be minus the "virile force," with round steak at 23 cents a pound.

A queen bee lays from two to three thousand eggs in twenty-four hours. The man who will discover how to cross a queen bee with a hen will soon have money enough to buy an automobile for himself and all his poor relatives.

Our old friend, Diogenes, once said a remarkably good thing. When asked by a love-stricken youth when was the proper time to marry, he answered: "If you are young, not yet; if you are old, never."

A minister testified not long since that he passed sixteen saloons within a radius of three blocks in Chicago. Had he been sailor or a free lunch fiend he would have passed none of them.

Almost any smart young fellow can tell the weight of a girl by holding her on his lap. A fellow of our acquaintance once found out the weight of the girl's father on this account.

It seems that just as soon as some men succeed in gaining a residence on Easy Street, some other fellow comes along and attempts to shove him in the gutter. Such is life.

When a couple are newly married, they feel as if they could devour each other. After the lapse of a year or so, they regret that they did not follow their first inclination.

It is a noted fact that many women frequently "lose their head." Such being the case, why do they insist in buying and wearing twenty dollar hats?

Somewhere in the Bible it reads: "In that day seven women shall take hold of one man." They must have held church fairs when that was written.

When a girl suddenly meets a toad in the garden path she will break the Wellesley high jump record, and not boast of it afterward.

Have you ever taken notice that the man who cannot tell when the banks open, can generally tell when the saloons close.

Girls have peculiarly romantic names nowadays, but occasionally a girl baby is found with a good old-fashioned name.

When a girl has enough hair of her own to hide her ears, she looks loftily down on the girl who buys most of her hair.

The handsomest girl in this city is a reader of this paper, we are proud to state, and she is now reading this item.

No girl looks sweet and wholesome just before having an aching tooth extracted. How can she?

## State Chairman Who Admits Crime In Political Graft Hunt.

Arthur A. McLean of Newburg, N. Y., a wealthy merchant and treasurer of the Democratic state committee, is the first big fish to become entangled in the net of District Attorney Charles S. Whitman, who is conducting a political graft hunt. Treasurer McLean, indicted for accepting campaign contributions from corporations, pleaded guilty to the indictment on advice of counsel. Sentence was suspended by Justice Davis. District Attorney Whitman promises additional sensations in his graft probe.

## POWERS AGREE TO TAKE NO PART IN EXPOSITIONS

Sixteen European Nations Formed Alliance Two Years Ago.

New York, Jan. 18.—A semi-continental agreement among 16 European nations not to participate officially in international exhibitions except at three-year intervals, beginning October, 1912, was reached by representatives of these governments at a meeting in Berlin, Oct. 8 to 14, 1912, according to information made public here tonight, which has reached the American committee to celebrate the hundredth anniversary of peace among English-speaking nations.

The American government was represented only unofficially at this meeting and did not become one of the signatory nations.

A copy of the document of agreement—the original is in possession of the French government—has been placed in the hands of the state department by John A. Stewart, chairman of the executive committee of the American Peace committee.

The understanding, known in Europe as the Berlin agreement, is the sole basis for the recent reported anti-American contract apparently manifesting itself in a refusal to give official recognition to the Panama-Pacific exposition at San Francisco, according to the opinion of the American peace committee.

Mr. Stewart made the announcement regarding the Berlin agreement at a dinner given tonight by Jacob S. Schiff, a member of the American committee, in honor of the Earl of Kintore, a member of the British committee.

It was stated on behalf of the American committee by Alton B. Parker that Great Britain is to be represented unofficially at the San Francisco fair. The Anglo-American exposition which, at London this spring, precedes the centennial peace celebration, will be transplanted from Shepherd's Bush to the Pacific coast.

"The nations signing the agreement included Germany, Austria, Hungary, France, Great Britain, Russia, Italy and Spain," Mr. Stewart said at the dinner tonight. "It seems, however, that there are no terms in the agreement which bind under penalty these signatory nations which would prevent one or more of them, under the circumstances surrounding such an exposition as the Panama-Pacific exposition, from making such an event an exception."

Constructively, said Mr. Stewart, who will place this phase of the matter before the British peace committee, the Panama-Pacific fair cannot possibly fall within the purview of the international agreement, for the reason that while the exposition will open officially the first of 1915, it will not in fact open until later, and, since it continues one year, will extend beyond the period, Oct. 24, 1915, fixed by the Berlin agreement.

Mr. Stewart said the Berlin agreement in general terms gives as a reason for the desire to curtail official participation in exhibitions the increasing number of such exhibitions and the burden of expense.

## RAILROAD NOTES

A work train crew in charge of Conductor Taylor has been assigned to the York Beach branch for work on the several bridges along the line.

A Cincinnati dispatch states that the Pennsylvania railroad is planning retrenchment by cutting salaries of high officials.

The Boston Elevated employees' fight for higher wages cost 7000 and members an average of \$7 each. Members will be assessed in ratio to back pay they receive.

William B. Lawrence, who as trustee of his father's estate is the largest individual owner of Boston & Maine stock, says:

"In my opinion if the Boston and Maine is made independent of such management as it has had under the regime of recent years its problem will thereby be largely solved."

"President McDonald could handle the situation if given the real authority necessary."

"There is no reason why the road should not be able to continue to meet the rental payments under all its major leases. The only large portions of the Boston & Maine system that are unprofitable are the St. Johnsbury and Lake Champlain and the old Massachusetts Central railroads, both of which acquisitions were disastrous."

OBSEQUES.—Mrs. John Robinson

The body of Mrs. John Robinson who died in this city Jan. 17th was taken to Gardner, Mass., this morning for services and interment, under the direction of H. W. Nickerson.

## YOUNG ROWDIES ARE SCORED

Police Commissioner O'Meara of Boston Handles This Class Without Gloves.

The Herald has from time to time called attention to the young rowdies who are in the habit of congregating on Congress street and hurling slurring epithets to the passers by of both sexes. This class of corner bouter receives a severe castigation in the annual report of Police Commissioner O'Meara of Boston.

"The taint of rowdism," he says "seems to be upon two thirds of the boys and young men who stand at the corners or lounge about the streets, especially at night. It is shown in the set of the cap, the roll of the shoulders, the insolent talk, the rude scuffling, the insulting epithet and sometimes the cowardly blow ready for man or woman who seems defenseless."

"There are thousands of such boys and young men in Boston, rarely committing in the presence of a policeman an act for which they can be prosecuted, but playing the hoodlum whenever opportunity offers, drawing their amusements from the sufferings which they are able to inflict upon orderly people and turning readily to the commission of any crime which promises to be safe and profitable."

"Their homes, apparently have neither taught them morals or manners; the churches have lost their hold upon them, if hold they ever had; the schools have given them education enough to read the sporting news, the ancient stories and romances and the vulgar jokes which fill the only printed pages that interest them; gullible-thrope persons of the best intentions have gotten them on the back, have told them what fine fellows they were and have stimulated instead of discouraging that vanity which is natural to youth; and when under 17, the laws have established them as delinquent children, without provision for the kind of punishment which to the delinquent child is most convincing."

He makes this statement in connection with the discussion of juvenile offenders. His complaint is that the street corner plays an important part in the process by which boys become hoodlums and hoodlums become criminals, and yet he says there is no statute, and in Boston, unlike other cities of the Commonwealth, there is no ordinance which gives the police even reasonable authority over men and boys who loiter on sidewalks or obstruct traffic.

He says that to prosecute the policeman must be prepared to prove that the offender loitered or obstructed wilfully, wantonly and maliciously. His report is almost entirely given up to the juvenile question and only in brief does he touch the lodging house question or the adult offenders who are handled by the police in the course of a year's work.

Offenses Increasing

Statistics show that the manner in which juvenile offenders have increased and showing the disposition of them by the court were also furnished by the commissioner in his report, and he calls attention to some of these figures.

In the twelve months ending November 13, there were 3662 persons between the ages of 7 and 17, of which 104 were girls. Of this number, 344 applications were taken care of by probation officers, 940 cases were placed on file, 916 of the offenders were given the benefit of probation, 285 were fined, 136 sentenced to different correctional institutions, five held for the action of the grand jury, and 229 discharged.

There were 495 juvenile cases charged with larceny during the year, and 504 adults. Of the 504 adults, however, 250 of them were under 21 years. This is an increase of over 50 per cent since 1912.

The complaints for malicious mischief have doubled in four years.

"The present system of dealing with juvenile offenders," he says, "is doubtless correct in theory and consistent in procedure."

"In many individual cases it surely has accomplished much good; and I fear that by largely eliminating the idea of force, and by depreciating even harshness, it has helped, though."

WORTH KNOWING.

In the Pacific Ocean, far beyond China and Japan, lie the only two countries in the world which fully acknowledge the equality of men and women by giving political rights to all citizens of twenty-one, regardless of sex. They are New Zealand and Australia.

New Zealand was the first by a dozen years to put her daughters on a suffrage equally with her sons. It was in 1867 that the cry was raised, "shall our mothers, wives and sisters have suffrage?"

The answer was given in 1893 by the right enfranchisement of women. In Australia the change came more gradually, province by province. But a few years ago the final concession was made and now Australian women like their sisters of New Zealand, are equals in this way of their husbands, brothers and sons.

When were postage stamps first used?

See this space tomorrow.

## CURRENT OPINION

NEW HAMPSHIRE LOOKS HOPEFULLY FORWARD.

Governor Feltner of New Hampshire, speaking in Boston to the organized daughters of the state the other night, held out assurance of its development that were not faithful but had support in specified items of progress. He did not discuss population but presented the activities of the state in education, farm betterment and industrial growth that may be expected to give it a better showing in the census. New Hampshire gained moderately in the years from 1880 to 1910 but had actually fewer people of native parentage in the latter year. Like the other New England states and rural regions of all New England, the Granite state has been heavily drawn upon for the building up of other sections. It is a cornucopia with broad opening to the south, pouring out its wealth of men and women to waiting fields. It is an old saying about New Hampshire that it slopes the wrong way. The problem it faces is to restore its least favored phases to their former consequence and develop its better ones to the highest point of attractiveness. It is that way the state seems to be moving.

In education, New Hampshire's Governor declared, there has recently been made tremendous progress until she is fully abreast of the times. Much has been accomplished in increasing the fertility of the soil. Manufactures in cities like Manchester, second only to Boston in freight contributed to the Boston & Maine railroad, there is expansion. These are not evidences of decadence. They mark the gaining and not the setting state. None is better located to gather the first gains of the movement, which seems to be fairly under way, from the cities back to the farms. It may well be hoped and believed that the roads that have given easy way out of its territory will be found to yield an easy way of return.—Christian Science Monitor.

only helped to create an atmosphere in which the masses of boys standing between those who would be orderly or would be disorderly under any conditions natural to their situation are likely to turn toward those whose audacious leadership makes lawlessness attractive."

He says that the boy's mind works directly to net results and he sums up his experience with the court by saying "I got off," or "he didn't do a thing to me."

FORD APPROACHES PERPETUAL MOTION

To Spend Million Dollars on Machine That Amazes Scientific World.

Henry Ford's recently announced plan for dividing \$10,000,000 in profits annually among his thousands of employees has aroused widespread interest among the general public. Varying opinions have been expressed as to the wisdom or practicability of this policy. Ever since he jolted about Detroit in his first primitive experimental automobile, Ford has been a dreamer who makes his dreams come true, and he is not likely to worry very much over what he is called at this late day. Indeed, it is exactly his daring quality of imagination which has been responsible for his remarkable success.

Almost at the same time that Mr. Ford announced his unprecedented profit-sharing plan he started the engineering world in a manner less spectacular, perhaps, but quite as revolutionary from a scientific and mechanical standpoint. He is preparing to spend a million dollars on what will come as close to a perpetual motion machine as the theoretical progress of modern science permits. The perpetual motion inventor has been a standing joke for generations—but here comes Ford with a practical application of at least part of the will-of-the-wisp of mechanism, and, what is more, he has placed a million dollars worth of contracts to embody his dream in the brick and stone and iron and steel of a gas engine-electric power plant that will be absolutely unique. The power to be turned into electricity and thus distributed through the great automobile factory covering many acres, will be produced by four big 6000-horsepower engines, which may be best described as a hybrid of gas and steam. Some engineers when they first heard of the plan called it a mechanical nightmare. Each engine will have four cylinders in tandem on each side, one pair of cylinders being operated by producer gas and the other by steam. The steam will be generated from water heated in the water jacket of the gas engine, further heated by exhaust gases and by waste heat from the producer gas plant. The water or steam will be used as the feed water for the boiler which supplies the steam engine cylinders.

This description may sound a little technical, but it will be exactly the same in effect as if one took hot-water from the radiator of a gasoline motor car, further heated it with the exhaust pipe and with this water or steam operated a steam engine in help out the gas engine cylinders in driving the automobile. This process carried to the limit would be practically a perpetual motion machine inasmuch as all energy wasted in heat and friction would be utilized again and again. Any school boy who has struggled with physics will have vague memories of the law of conservation of energy. No energy is ever really lost, and Ford's plan in this remarkable apparatus is to round up as much as possible of the energy wasted by the ordinary engine in the form of heat. The four 6000-horsepower engines of this novel design will drive the same number of 3750-kw. 250 volt, 80 revolution, direct current generators having the largest electrical record for machines of this type. These generators will be built at Amherst, N. J., and an idea of the enormous size of this apparatus may be gained from the fact that it will be necessary to build it in sections to permit clearance through tunnels and bridges in shipment from Amherst to Detroit. The generators will then be finally assembled at the Ford plant in Detroit.

This remarkable power plant, by utilizing the energy usually lost in waste heat, is expected to give the Ford factory the cheapest power in the world.

### RYE NEWS

The Crescent Club was entertained by Miss Marion V. Mason at her home in Portsmouth on Friday evening.

The Crescent Club will hold a whist and dancing party January 21st. Hoyt & Rowe will furnish the music. Everyone invited.

Horace Whidden, now in business in New York City is visiting Mr. and Mrs. Irving Garland of West Rye for a few days.

The regular services were held in both churches on Sunday morning. In the evening at 7:30 union service was held in the First Christian church. Rev. Hase of Dover spoke on "The Young Men's Christian Association, and the Boy Scout Movement," which was very interesting.

Superintendent Howard Becker of the Champlain Well Drilling Company of Baet Land Meadow, Mass., has completed a 376 foot well at Straw's Point, for Straw and Carpenter, and will return home this week.

Ragged Neck Club house was open on Sunday where several members spent the day.

### KITTERY

#### NOTICE

Delinquent poll and personal tax payers of Kittery. See the collector at once and keep your name out of town report.

COLLECTOR.

The fourteenth annual invitation ball of Alpha Council Royal Arcanum will be held this evening at Freeman's hall and it is expected to be as successful as all the former affairs held by this organization. Many of the members of the Major Walden Council of Dover, will be special guests.

## FOR PASSING BAD CHECK

Charles F. Hooper of Sanford  
Is Arrested in Man-  
chester.

Charles F. Hooper who came here several months ago to organize the order of Buffaloes, and who has made his home here until recently, was arrested by the Manchester police Saturday night, charged with passing a worthless check on a saloon keeper. Alphonse J. Blodau was Hooper's victim and the scheme netted \$10.

Blodau entered the saloon last Monday and bought a few drinks. He gave evidence of being prosperous by the way he pulled out when paying for the beverages, and he did not hesitate to treat several times. He also possessed the ability to talk on various and important matters and after ending his flow of conversation, asked the proprietor if he would favor him by cashing the check. The request was granted and Hooper left the saloon.

The check was issued on a Man-  
chester bank, but when presented the deposit was lacking.

### THE KINDLY QUAKERS

A generation or two ago there was in the town of Adams, which at that time comprised North Adams as well, a sizable society of friends or Quakers they were commonly called. During the past week there has been held in Adams a reunion, a few of the descendants of the old Quaker families. It is a common error to associate the Quakers with the Shakers as being somewhat kindred in their habits and religion but such is far from the truth. The Shakers do not marry, but the Quakers do, and as a rule Quaker families were large.

While the Quakers were a plain people they were nevertheless industrious and some of the largest fortunes in the country can be traced back to members of the Society of Friends. The Quakers dressed severely in plain and worshiped God in the same manner. There were no paid ministers among the Quakers. Some intelligent members of the sect preached talked regularly each Sunday. The preacher got no salary, if perchance his duties caused him to be absent from his farm or shop the neighbors came in and made good the loss by planting the corn or by finishing up the haying as the case might be.

In journeying about, the Quakers in a way adhered to the passage in the Bible, "Take no money in thy purse," because a Quaker was not supposed to and did put up a member of the sect

without charge, although on the farm a visiting Quaker would often remain a day or a few hours and give a good generous lift in the farm work, while the women folks would care for their own homes and do any other household work that needed to be done. In business the Quakers were the sole of honesty. A debt was a sacred obligation and if one member of a family were unable to pay what he owed his friends would do it for him or go on his bond. Such were some of the characteristics of the Quakers of the older days whose children met in Adams last week. Modern habits of dress and religion slowly undermined the severe lines of the Quaker religion, and gradually this kindly, stern and Puritanized as many suppose—religion and way of living are passing. The Quaker life and Quaker religion were one of the best methods for the conservation of the human race in a pure and unadorned way that has ever been known in history, and it is to be profoundly regretted that they could not resist the pressure of the strenuous life of the country in which they grew and flourished. —Herkshire Eagle.

### WILL ARGUE FOR MAINE

Gov. Haines and Others Going to  
Washington to Urge Continuance of  
Lobster Work.

Augusta, Me., Jan. 18.—Gov. Haines will leave for Washington Wednesday night to appear on Friday at a hearing before United States Commissioner of Fisheries H. M. Smith in the interest of the Maine Lobster Industry. He will be accompanied by Henry D. S. Woodbury of Portland, State Commissioner of Sea and Shore Fisheries; Capt. Packard of the state cruising lobster launch, and two or more lay delegates from Portland and Rockland.

Until recently the Federal Government has purchased the seed lobster of the state, and the state in turn has bought them of the fishermen along the coast. It is this policy which Commissioner Smith proposes to abandon. One thing that I shall especially urge at the hearing, said Gov. Haines, is a continuance of the present plan by the Federal Government until the next Maine Legislature meets in 1915. It would require some \$15,000 or 18,000 for the state to take over the industry now, and at the present time there is no fund from which such money can be taken.

Securing lobsters for this purpose has naturally been an expensive operation, but it has taken some 10 years to get the fishermen trained into this line of work so that it has been operated successfully. To interrupt this industry now for nearly a whole year would handicap the business and be somewhat discouraging to the thousands of fishermen scattered along the 400 miles of the Maine seacoast. A whole year's interruption of the pen might work havoc with the industry. When the Legislature again meets some other plan can then be devised but until then it is likely to work hardship upon the fishermen.

Maine produces more lobsters than all other states combined. In 1912 the lobster catch of Maine amounted to 16,189,224 pounds, of a value of \$2,062,355.

### THOMPSON GOES TO PALMER

Man Arrested in Lowell Also Wanted in Manchester, N. H.

Lowell, Jan. 18.—H. Thompson, of Springfield, who surrendered himself twice to the Lowell police Saturday, was taken to Palmer today on a charge of raising a check. Superintendent Welch received a message today from the Manchester, N. H., police saying that Thompson was wanted there.

### Wants Clothing Free

Senator Tillman has submitted an amendment authorizing the secretary of the navy to issue a clothing outfit to all enlisted men serving in their second enlistment, etc., intended to be proposed by him to the naval appropriation bill.

He also submitted an amendment providing that chief carpenters and carpenters shall be eligible for appointment to the grade of ensign under the restrictions imposed by law, etc.

Accidents will happen, but the best regulated families use Dr. Thomas' Electric Oil for such emergencies. Two sizes, 25c and 50c, at all stores.

## PERSONAL ITEMS

H. W. Payser and wife are passing a few days in Boston.

Harry P. Mowse passed Sunday in Newburyport with friends.

Miss Nellie Foster of East Machias, Me., is the guest of relatives.

Minna Pendergast passed Sunday at his old home in Newmarket.

Mrs. Charles A. Stedman is now stopping at the Copley Plaza, Boston.

Miss Lena Smith has gone to Canton, N. Y., for a visit with relatives.

Miss Cynthia Brooks Welch of Lowell, Mass., is the guest of Miss Annie Brooks.

Mrs. Frank Merrill has gone to New York being called by the illness of her brother.

Miss Rachel Foster of Northampton, Mass., is the guest of friends in this city.

Thomas J. Smith of West Newbury, the veteran traveling salesman was here today.

Mr. and Mrs. Benjamin Deering of Pittsfield, Mass., are passing a few days in this city.

Mr. and Mrs. Edward Gerrish of Child's Crossing passed Sunday with relatives at Kittery.

Augustus Finnegan of the Boston postoffice force, passed Sunday with his family in this city.

Mrs. Nellie E. Smith of Duxbury, Mass., is the guest of Mr. and Mrs. S. B. Bates of New Castle.

Dr. Mayer A. P. Lightfoot of Portland, Me., was here on Sunday, the guest of Dr. T. W. Luce.

Storer Whidden who is at the Westworth home recovering from a severe attack of rheumatism.

Michael J. Loyden passed Sunday with his sister in Newburyport, Mass.

Robert Wilson passed Sunday in Boston.

Fred Coleman and Leroy Moore, the well known local drug clerks, left on Sunday on a week's pleasure trip to New York.

Landlord George Q. Porter of the Rockingham Hotel who has returned from a southern trip is restricted by a severe cold.

Henry Cobb of Portland, Me., and Emory Cobb of Malden, Mass., were here on Sunday called by the illness of their mother.

At Clyde Margeson and Edward V. Margeson have returned from an inspection of the furniture houses at Grand Rapids, Michigan.

Charles Conbig, employed by the Western Union Telegraph Company at Pawtucket, R. I., is passing a few days at his home in this city.

Thomas A. Ward and Mrs. Sherman Ward left today for New York where the latter is to join her husband. They will reside in Brooklyn.

Mrs. Fred A. Bryan of Decatur, Nebraska, arrived on Sunday, being called by the serious illness of her grandmother, Mrs. Janet, 60th of Deer street.

Captain Carroll C. Carpenter, U. S. M. C., brother of Mrs. Fred M. Sise of this city, is detached from the army service school, Fort Leavenworth, Kansas, and ordered to the marine barracks, N. Y.

Charles H. Tucker, a teacher in the Waterbury, Conn., high school, is passing a brief vacation with relatives at Kittery Junction. Mr. Tucker graduated from the Portsmouth high school several years ago with fitting honors.

## PORTSMOUTH THEATRE PROGRAMME

For Monday and Tuesday  
The Street Singers—Vignette Drama  
in two parts.

He was rich, she was only a street singer. They marry and sing their way to riches. They become moving picture players and gain greater fame and fortune. Wallie Van and Lillian Van are featured.

ACT—Wright & Davis—Singing and Talking.  
Pathe's Weekly.

Giving you all the latest and interesting facts of the world at a glance, including a view of the launching of a submarine, which is the first moving picture ever taken of this kind in the United States.

ACT—The Menards—Two Women—Acrobatic.

A Motor Cycle Elopement—Biograph Comedy.

He agrades a surprise by getting a motor cycle.

Skelly's Skeleton—Biograph Comedy on the same reel.

He was a lazy "skate," so lazy that he sold his skeleton while he still walked around in it.

Her Husband's Friend—Vignette Drama.

He proves the wife's friend too in time of her need. Their marriage is the result of true friendship and respect for each other.

A GREAT BIG FEATURE FOR WEDNESDAY AND THURSDAY—THE BIG HORN MASSACRE—Kalem in two parts. It took 300 men and 200 horses to make this film a success.

Matinee 2.15. Evening 7.00. Saturday Evening 8.45

HEAVY LIQUOR SEIZURE  
Bangor, Me., Jan. 18.—Sheriff O'Connell's deputies seized liquor valued at about \$1500 today from the sheds

of the Eastern Steamship Corporation. The liquor was mostly from Boston wholesale houses tagged in various liquor consignments.

The lot included 21 barrels of bottled ale, three barrels of bottled beer, three barrels of bottled whiskey, one barrel of bottled brandy, one 30 gallon keg of whiskey, six 5 gallon kegs of whiskey and twenty-six 10 gallon kegs of whiskey.

### FOR THE COLLAR OR JABOT

Those Fashioned From White Net Are  
Most Favored and Need Not  
Be Expensive.

White net is extensively employed to fashion many of the loveliest collars and jabots worn at present, and many of the most expensive designs can be copied by the clever needleworker.

Purchase a quantity of white net and a pattern for a well-fitting turn-down half collar, and place the latter over the net folded double. If the edge of the collar is straight lay it along the fold and cut out the material. Neatly join the outer edges, turn the collar and bind the neck with a blue strip of net. In each corner embroider a spray of small flowers or a single daisy, and border the collar with a narrow pleated frill of lace or net.

To the collar join pleated frills of net four inches wide, which extend down the front to the base of the V-shaped neck line. Pleats of net are deep sailor collars with rounded corners with the ends extending to the waist belt in front. These are cut from a single thickness of net and are bordered with pleated frills of lace or the same material.

The finely dotted or embroidered nets are also used for this purpose.

Dainty jabots are fashioned of pleated net arranged in two or three tiers and edged with lace or embroidered scallops.

Net is inexpensive and neckwear of this material is a becoming addition to any frock.

This should be incentive enough for any woman to fashion neckwear for her gowns.

For the bureau of old mahogany or the mahogany shaving case a pin cushion not too frilly is needed. Such a one is shown in a "colonial cushion," a copy of an antique. Even these modern copies come from old Salem. It is square in shape and of mahogany, standing on four half-inch high feet. Within the mahogany frame is the cushion made in any color. Of course, the cushion part may be renewed as often as one wishes, so it makes quite a durable article.

New Use for Old Lace.  
There is a new way of using rare old lace—if it is of the right shape and size. Fasten a band around the head, roll down over the hair and brow in the front and somewhat above the nape of the neck in the back. At right angles of this band fasten another, going under the chin and straight up across the top of the head. It can be fastened together over one ear with a jeweled ornament.

# CREW OF FULLER PALMER SAVED--SCHOONER LOST

## Prescott Palmer Also Missing and Grave Fears Are Held That She Is Lost With Crew.

The hurricane which swept the North Atlantic coast early last week worked havoc in the famous Palmer fleet of big coasting schooners.

The Fuller Palmer bound to this city, was abandoned in a sliding condition by her crew of 12, who were picked up by the British steamer Marlin, bound from St. John to Baltimore.

No tidings whatever have been received as to the fate of the Prescott Palmer bound from Norfolk to this city with coal and the belief is growing in insurance circles that the vessel has been lost, probably with all on board.

A third member of the fleet, the Rebecca Palmer, also coast laden, reached Portland Sat. without forecast or mishap, after a terrible battle with the storm.

The Fuller Palmer, Capt. L. W. Clark, and the Prescott Palmer, Capt. George A. Carlisle were reported last Monday passing Highland Light, together. This would indicate that they were somewhere off the North shore when the northwesterly hurricane swept down on them Monday night.

J. S. Winslow & Co., managing owners of the fleet was notified of the loss of the Fuller Palmer Saturday in a message from Capt. Clark, which was linked to the shore from the steamer Marlin. This message carried no particulars, but the owners are confident that it was the Fuller Palmer which was on board the schooner.

A message received late Saturday night stated that the crew of the Fuller Palmer, spent two days in open boats before being picked up and suffered intensely from the bitter cold.

The Fuller Palmer was the last vessel built for the Palmer fleet and was regarded as the best equipped and most seaworthy. The disaster to the vessel means a heavy loss to the owners. It is figured that if the Fuller Palmer succumbed to the fury of the gale there is little hope for the Prescott Palmer.

The Fuller Palmer was built at Bath six years ago at a cost of more than \$100,000. She registered 236 tons net, 309 feet long, 43 feet beam and 27 feet depth. She ordinarily carried a crew of 12.

The revenue cutter, Andromeda, Capt. Hall, which arrived Saturday at Boston, from Baltimore, where she has been undergoing repairs, was ordered to join the fleet in the search for the Prescott Palmer. The cutter left Saturday evening and will proceed in the morning, covering the locality where the Fuller Palmer was abandoned.

It is possible that the rescued crew may have tidings of the Prescott Palmer or her crew.

The Prescott Palmer was built by

the New England Shipbuilding Company at Bath, Me., in 1902. The vessel is a five-master, 288 feet in length, 46 feet beam and has a gross tonnage of 2807. She probably carries a crew of 12 men.

### RODE OUT GALE OFF CHATHAM

Rebecca Palmer Loses Sails and Two of the Crew Are Badly Frosted.

Bath, Me., Jan. 18.—Capt. W. H. Davis of the schooner Rebecca Palmer was warmly congratulated Saturday on his success in bringing his schooner into this port. She was 35 miles off Cape Elizabeth Friday and was reported by Capt. Lewis of the North Star on her arrival, although he was not absolutely certain it was the Rebecca Palmer.

Capt. Davis said that his schooner took the full force of the great storm of Monday and a main and foresail were blown in pieces. She leaved rapidly and became very hard to manage.

After the loss of his sails Capt. Davis brought the schooner around and was anchored off Chatham until the tempest was over.

During the storm the vessel was badly pounded by wind and sea, and it was a constant fight to keep down the lee. She sustained no special damage except the loss of her sails.

The Rebecca Palmer left Norfolk Dec. 20. On arrival here John Cox and Cornelius Williams two of the crew, were taken ashore for treatment. They were badly frostbitten.

### SCHOOL STATISTICS

Statistics of statistical returns from the 257 school districts of the state show that the average length of school year maintained for the school year of 1912-13 was 34.34 weeks. While several of the city school districts maintain 38 weeks, 36 weeks in the community accepted profitable length of school year. The average length for the state for the school year 1911-12 was 33.8 weeks. For the school year of 1902-03, the length of school year was 28.69. It will thus be seen that there has been an increase of nearly six weeks in the annual average schooling of New Hampshire children in ten years.

The following school districts for the last school year maintained less than thirty weeks.

Albany, Ashland-Town, Auburn, Beldamwater, Bristol-Town, Brookfield, Center Harbor, Chichester, Colebrook-Town, Dunsmuir, Ellsworth, Freedom, Gilford, Gilmanton, Gosport, Granton, Grafton, Jackson-Town, Lyman, Monticello, Newbury, Northfield, Orange, Pittsburg, Randolph, Salisbury, Sandwich, Sharon, Shelburne, Stoddard.

Murray, Warner, Washington, Wind-

It is interesting to note that in all of the instances marked "town district," there is another and more populous district in the town and in every case the school year in the so-called special village district was decided longer than that in the town district or outlying portion of the town. In three of the four cases to wit: Ashland, Bristol, and Colebrook, the children in the village district enjoyed 36 weeks of schooling.

### RUB RHEUMATIC, ACHING JOINTS

Rub pain away with a small trial bottle of old "St. Jacobs Oil"

Rheumatism is "puta only." Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and can not burn the skin.

Limber up! Quit complaining! Get a small trial bottle of "St. Jacobs Oil," from any drug store and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief and a cure awaits you. "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

### KITTERY POINT

#### What Is Happening in the Harbor Town

A sale of home made candy and aprons will be held at the home of Mrs. Edward J. Moulton on Wednesday evening under the auspices of the First Christian Church Bible Class.

Edgar L. Tobey has resumed his duties at the navy yard after enjoying a brief vacation.

Frank Waldron has resumed his duties at the store of Pringle Brothers after enjoying a vacation.

William Randall has resumed his duties at the navy yard after enjoying a vacation.

George Goodenough has moved his family to South Berwick.

Harold Grace of Portsmouth visited friends in town on Sunday.

Frank Call passed the week-end with his family in North Berwick.

Schooner M. V. D. Chase, South Amboy for Rockland, Me.

Schooner Edward Trevoay, Blue Hill Me., for Boston.

Schooner John J. Perry, Rockport Me., for Boston.

Miss Belle Smith of Kittery has been visiting her parents, Mr. and Mrs. Angus Smith.

Richard Seward has taken employment at the A. S. R. R. power house.

John R. Goodwin has been the recent guest of relatives in York.

Mrs. Hattie Townes returned on Saturday from a visit to Lawrence, Mass.

Mark W. Keene has been called to Brixham, Me., by the serious illness of his mother.

Miss Marion Drake of North Hampton, N. H., passed the week-end with her grandfather, Wm. Tobey.

Frank Morse has been called to Kittery by the death of his mother, Mrs. Emily Morse.

Mrs. George S. Wasson has returned from a visit with friends in Medford, Mass.

Captain Edgar M. Frisbee is able to be out after a short illness.

Edward Seward of Quincy, Mass., passed Sunday with relatives in town.

Mr. and Mrs. Fred Miller are being congratulated upon the birth of a son.

Rather Cotton of Portsmouth called on friends in town Sunday.

Horace Haisfield of York was a Sunday visitor in town.

William Seward of North Kittery is hauling ice for Pringle Brothers.

George Haisfield of York was a visitor in town on Saturday.

The contestants in the recent tournament at Austin Brown's pool room enjoyed a turkey supper in Portsmouth on Friday evening.

Brattleboro Grange Building Burns

Brattleboro, Vt., January 18.—The Grange Building on Elliott street was destroyed by fire early today, causing a loss of \$50,000. The firemen were unable to fight the flames effectively at the outset because of the dense smoke pouring from the basement.

The origin of the fire is unknown. The three firemen were hurt by falling bricks and glass.

PROPOSALS will be received at the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., until 10 o'clock a. m., February 3, 1914, and publicly opened immediately thereafter, to furnish at the navy yard, Portsmouth, N. H., a quantity of naval supplies, as follows: 500,000 lbs. of pine, spruce, etc., 500,000 lbs. of steel, metal, etc., 500,000 lbs. of iron, metal, etc., 500,000 lbs. of copper, metal, etc., 500,000 lbs. of brass, metal, etc., 500,000 lbs. of zinc, metal, etc., 500,000 lbs. of lead, metal, etc., 500,000 lbs. of tin, metal, etc., 500,000 lbs. of nickel, metal, etc., 500,000 lbs. of cobalt, metal, etc., 500,000 lbs. of manganese, metal, etc., 500,000 lbs. of chromium, metal, etc., 500,000 lbs. of vanadium, metal, etc., 500,000 lbs. of niobium, metal, etc., 500,000 lbs. of tantalum, metal, etc., 500,000 lbs. of molybdenum, metal, etc., 500,000 lbs. of tungsten, metal, etc., 500,000 lbs. of rhenium, metal, etc., 500,000 lbs. of osmium, metal, etc., 500,000 lbs. of iridium, metal, etc., 500,000 lbs. of platinum, metal, etc., 500,000 lbs. of gold, metal, etc., 500,000 lbs. of silver, metal, etc., 500,000 lbs. of copper, metal, etc., 500,000 lbs. of brass, metal, etc., 500,000 lbs. of zinc, metal, etc., 500,000 lbs. of lead, metal, etc., 500,000 lbs. of tin, metal, etc., 500,000 lbs. of nickel, metal, etc., 500,000 lbs. of cobalt, metal, etc., 500,000 lbs. of manganese, metal, etc., 500,000 lbs. of chromium, metal, etc., 500,000 lbs. of vanadium, metal, etc., 500,000 lbs. of niobium, metal, etc., 500,000 lbs. of tantalum, metal, etc., 500,000 lbs. of molybdenum, metal, etc., 500,000 lbs. of tungsten, metal, etc., 500,000 lbs. of rhenium, metal, etc., 500,000 lbs. of osmium, metal, etc., 500,000 lbs. of iridium, metal, etc., 500,000 lbs. of platinum, metal, etc., 500,000 lbs. of gold, metal, etc., 500,000 lbs. of silver, metal, etc., 500,000 lbs. of copper, metal, etc., 500,000 lbs. of brass, metal, etc., 500,000 lbs. of zinc, metal, etc., 500,000 lbs. of lead, metal, etc., 500,000 lbs. of tin, metal, etc., 500,000 lbs. of nickel, metal, etc., 500,000 lbs. of cobalt, metal, etc., 500,000 lbs. of manganese, metal, etc., 500,000 lbs. of chromium, metal, etc., 500,000 lbs. of vanadium, metal, etc., 500,000 lbs. of niobium, metal, etc., 500,000 lbs. of tantalum, metal, etc., 500,000 lbs. of molybdenum, metal, etc., 500,000 lbs. of tungsten, metal, etc., 500,000 lbs. of rhenium, metal, etc., 500,000 lbs. of osmium, metal, etc., 500,000 lbs. of iridium, metal, etc., 500,000 lbs. of platinum, metal, etc., 500,000 lbs. of gold, metal, etc., 500,000 lbs. of silver, metal, etc., 500,000 lbs. of copper, metal, etc., 500,000 lbs. of brass, metal, etc., 500,000 lbs. of zinc, metal, etc., 500,000 lbs. of lead, metal, etc., 500,000 lbs. of tin, metal, etc., 500,000 lbs. of nickel, metal, etc., 500,000 lbs. of cobalt, metal, etc., 500,000 lbs. of manganese, metal, etc., 500,000 lbs. of chromium, metal, etc., 500,000 lbs. of vanadium, metal, etc., 500,000 lbs. of niobium, metal, etc., 500,000 lbs. of tantalum, metal, etc., 500,000 lbs. of molybdenum, metal, etc., 500,000 lbs. of tungsten, metal, etc., 500,000 lbs. of rhenium, metal, etc., 500,000 lbs. of ## LOCAL DASHES

Rumors of a business change are rife.

Train travel was very light this morning.

Great Bay smelts, and eels, at Clark's Branch, Tel. 133.

Only one arrest for drunkenness was made by the police on Sunday.

Tongues, cheeks and haddock spawn at Clark's Branch, Tel. 133.

The local ice dealers are having excellent weather for the harvesting of their ponds.

Lobsters and fish of all kinds caught by our own boats, fresh every day. E. Jamieson & Sons, Tel. 652.

The installation of the newly elected officers of the De Witt Clinton Commandery, Knights Templar, takes place this evening.

Pat Quinlan, speaker at K. of P. hall, Freeman's Block, Monday, Jan. 19, at 7.30. Admission free.

A nurse with comfortable home would like aged invalid, or feeble-minded person to care for. Address Hampton, N. H., Box 241.

Lobsters, eels or Shaws Raddock and Cod brought in every morning fresh, by our own fishing fleet. H. A. Clark & Co., 1 and 2 Commercial Wharf, Tel. 635.

Work left with the late Charles N. Holmes on Penhallow street, can be found at William Horne's, 33 Daniel street, sawmill, locksmith, upholstery, repairing, grinding, etc.

The taking off of the Sunday trains on the Portsmouth and Dover branch is greatly missed by those who were wont to visit the up river city on Sundays and those persons arriving here from Boston on the Pullman whose destination is Dover.

Safety razor blades sharpened, skates razored, saws filed, umbrellas mended, keys made, locks repaired, razors honed and rehandled, scissors knives and tools ground at Horne's 33 Daniel street.

The local Cadillac agent makes a specialty of carrying Cadillac parts and has all necessary parts in stock at all times and can furnish any part to any Cadillac ever built. It seems wise to purchase a Cadillac, never mind how old it is—you can get parts to it.

Sale of tickets for the Cathedral Choir will close at F. W. Knight's at 5 p. m. Tuesday Jan. 20 and resume at M. E. church at 7.35 if any seats then remain unsold. Those who desire to hear this most excellent program are urged to secure their seat reservations now. Those who have bought from solicitors should exchange their tickets at Knight's at once.

You are invited to attend the lecture by Pat Quinlan Monday evening, Jan. 19, K. of P. hall, Freeman's Block. Admission free.

The reports of the damage done to plumbing here during the cold spell of the first of the week continue to come in and the plumbers are still kept on the jump and in some cases the carpenters and masons have been called in. The loss at a low estimate will be several thousand dollars. In Kittery several stoves were wrecked, through the water front freezing.

## REMOVAL NOTICE

On and after Jan. 1, 1914, Dr. A. F. Pickering, dentist, will be located in a new office, with an entire new and up-to-date outfit, situated at No. 82 Congress street, nearly opposite the old office, and having the same entrance as Dr. William O. Jenkins. I herewith extend a cordial invitation to all of my patrons and the public to inspect the same.

DR. A. F. PICKERING.

## PASSENGERS GIVEN A SHAKE UP

Cars on Portsmouth Street Railroad  
in Collision at Junction of Middle  
and State Street

Two cars of the Portsmouth Street Railroad were in collision on Middle street, near the junction of State street, shortly before 2 o'clock. The car from Rye in charge of Conductor Blake and Motorman Livingston, was in the lead and when opposite the Middle street Baptist church stopped to leave passengers. The Salisbury street car in charge of Conductor Plaisted and Motorman Seely was following close behind and when the motorman applied the brakes they failed to work and the car slid along on the icy rails and crashed into the Rye car.

In the rear car there was only four or five persons and while they were

given a severe shaking up, no one was hurt. The force of the collision, broke out glass in the rear car, bent the forward end of the car and broke off the fender. The forward car was but very little damaged.

Motorman Seely quickly snuck to his post and did his best to check the car. He escaped without injury.

## BACK FROM MARKET.

After buying their spring stock of furniture in Grand Rapids, Mich., R. Clyde Margeson and R. P. Margeson have arrived home. They report that the furniture exhibit was the largest

they had ever seen. There were something like eight large buildings devoted to show rooms for furniture not made in Grand Rapids. Most of the furniture factories in Grand Rapids are a mile or two from the center of the city and they all have touring cars at the hotels to take the buyers out to the factories. There they have their own exhibit, showing samples of what they manufacture. In this same building they have a grill room, where, during the month of January, they serve lunch and refreshments. Every one is treated royally in Grand Rapids and it is certainly the place to buy furniture.

## NOTICE

Whist party and dance given by Constitution Circle, No. 291, Tuesday evening January 20th. Whist 8 to 10 at D. V. C. Hall, Dancing 8 to 12 at Rochdale Hall. Refreshments. Tickets 25c, including ad.

## NOTICE.

On and after Monday, January 19, 1914, the bridge at York Harbor, Me., will be closed for a month or more while a new draw is being put on by the Boston & Maine railroad. It will be Read the want Ads.

## The Herald Hears

That the railroad men of the Boston & Maine believe that the steam derelict taken from the wrecking train in this city and stationed at Portland will come back before long.

That the several contractors from this city at work on the new building at the county farm have nearly finished their work.

That the horse race on Lafayette road this afternoon attracted numerous spectators.

That the recruits recently sent from New York to the 156th Company at Fort Constitution, New Castle, are a fine looking body of men.

That the tax collector of Kittery says he has got to have the money.

That the North End section keeps the police busy.

That it appears to be the right place of late to get relieved of your money.

That the proposed improvement of the Consolidation Coal Company on the water-front are likely to be started in the spring.

That the Portsmouth navy yard has been without a permanent captain since October, last.

That the present city government is

going to do something for the fire department.

That a local lady is said to have made application for the position of social worker formerly held by Miss Vera V. Bash.

That if an appointment is made it won't be for some time yet.

That a well known grocery clerk says he has seen the first robin on the Maplewood avenue bridge.

That he is taking the honor from a local street car conductor.

That his friends say it is a question, whether it was a robin or a pigeon.

That the Christian Shore lady says she does not mind how many pies are taken from her window if the dates are returned.

That the minstrel troupe of Nell O'Brien to appear shortly at Music Hall is the best on the circuit.

That O'Brien himself is the funniest blackface comedian on the American stage.

That he was always a favorite in this city and will be greeted with a packed house.

That the superior court comes in at Exeter tomorrow.

TO LET—A six room house, heat and bath, 188 Union street. Apply 188 Union street. he Jan. 19, 1914
